From the Course...

The cold weather has finally set in on the golf course. The grass is going dormant and the trees are almost bare. We have been busy in the maintenance department with leaf blowing, cart maintenance and club house renovation. I have also moved rope around on holes 1, 2, 5, 6, 7 and 9. This is designed to help keep the turf around the greens as healthy as possible so it can grow in and thicken up to provide you with optimal playing conditions around the green. There was such a dramatic difference on 1, 2, 6 and 9 that I added the areas on 5 and 7 and I want to thank everyone in advance for keeping their carts off those areas. The rain we received really helped perk up the rough and we have a lot of seed coming in these areas. We will continue our golf cart maintenance program throughout the winter, so if you have been putting it off due to the extended golfing season just let us know and we will get it done. Thank you and have a safe and happy holiday season.

General Manager's Message....

The bar area is almost complete and I would like to thank everyone that has contributed not only monetarily but those who have worked tirelessly to finish this project for our Christmas Party. John Kramer and Ray Williamson have done a wonderful job with the drywall and paint. A big "THANK YOU" to our staff who have kept the bar area clean so that we could continue to serve you during renovations. We are still accepting donations to purchase smoke eaters and other items to improve this area if you would like to donate.
